In addition to the references cited in the enclosed substitute form 1449A, attention is called to application number 09/797,038, filed March 1, 2001, by Mark Thomas Bellino et al., which is assigned to the assignee of this invention. On appeal to the Board of Appeals and Interferences in that application is an issue questioning whether the use of acetosol yellow 5GLS adequately describes that material. However, such an issue was resolved favorably by the Board of Appeals and Interferences incident to the allowance of U.S. Patent No. 6,544,702 B1.

This statement is filed under Patent and Trademark Office Rules of Practice 1.97 and 1.98 and shall not be construed as a representation that a search has been made or that no better art exists. A citation of background art in this document is not intended to imply that such art will be cited at other stages of the prosecution of this application.

Respectfully submitted,  
Kasturi Rangan Srinivasan
